Dear Commissioner Pierce,

AZ CORP COMMISSION
DOCKET CONTROL

I am extremely disappointed and concerned about your introducing Amendment #2 in the APS REST plans last week. Arizona needs to be increasing, rather than decreasing, renewable solar energy. Solar energy has the least harmful impact of all the forms of energy we use today; fossil fuels cause inordinate harm, both in extracting them and in using them, and the waste from nuclear power cannot be safely stored. In addition, to sabotage the development of solar power in Arizona is a bad business decision as solar power produces more high-wage jobs than other forms of power. As a person of faith who cares deeply for God's creation and a citizen of Arizona who cares about preserving our beautiful state, I urge you to rescind Amendment #2.

Sincerely,

Sally Rings

Arizona Corporation Commission
